STUDENTS' GYMKHANA ELECTIONS
Year 2021-22
Indian Institute of Technology, Guwahati

File Ref: IITG/SAC/GYM21/Elections/Agenda/

Agendas and Declaration Form

Post contesting for: **Institute General Secretary, Technical Board.**

Name: Priyanshu Gupta
Nick Name: Pranshu
Tagline (Punch line): Revive-Revamp-Innovate

Agendas:

Standing Points of the Agenda

1. **Opportunity for deferred placement and club based eligibility in placement & internships.**
   - Encourage companies for allowing club members to appear for profiles related to the club in placements and internships and providing options to the students involved in a startup or any club-related projects to sit in next year's placement.
   - Club PORs need to be structured properly, criteria for becoming a club member need to be defined. Regular maintenance of the database of club members and projects. Also, as deferred placement happening in other IITs, we can also work towards allowing our students to sit in next year's placements.
2. **Expanding the reach of Techboard to other IITs and IIMs for collaborative work.**
   - Collaborating with various technical and management clubs of IITs and IIMs to provide diversified exposure.
   - Collaborative projects and events will be introduced wherein different clubs from diverse colleges will take part and share their expertise along the way.
3. **Revival of club culture in the technical board.**
   - Due to the pandemic, club activities have been affected last year. Some of the major technical events of the campus like Kriti and Techevinche

---

have not been conducted in the last year. The senior-junior interaction has been hampered too.
- I propose to maintain a central repository for all the learning resources of clubs in the Technical Board website so that it is accessible to everyone.
- Proper inventory system for the club so that students can take hardware to the hostel as working in groups might not be possible during this pandemic situation.
- Conduction of more hackathons and workshops for the students as well as sessions with the seniors to interact and impart technical knowledge.

4. **Startup accelerator program for students.**
    - Create a network of Investors and mentors who can support startup ideas coming from Students from the campus.
    - Create a formal channel for investments with a startup accelerator program using our alumni network.

Other Agenda Points

1. **Enhance student participation in national and international events.**
    - Increasing the number of students representing IIT Guwahati in National and international level Tech events and boot camps.
    - Providing travel grants, mentorship, and support from Technical clubs to make these events more accessible to the students.
2. **Game-Development module under coding club.**
    - Promote and develop strategies for inculcating game development culture within the Technical Board.
    - Inclusion of a Game development problem statement in Kriti and dedicated projects under Coding Club.
3. **Summer Courses and projects for freshers by all technical clubs.**
    - Minimal and basic course and projects for the freshers by all technical clubs, to utilize their summer productively and to prepare them for the Techevince.
    - Every club has its resources which we can share with freshers through our technical board website.
4. **Enhanced alumni network to understand industrial needs.**
    - Increase the interaction between alumni and students community to understand the best practices in the industry.
    - Conduct sessions with alumni who have good experience in the industry

so that the students could know the do and don'ts.

5. **Proper channel to sign monetary MoU with company**
   - There are companies willing to collaborate with the technical clubs of IIT Guwahati to conduct workshops and sessions curated by the club members. These associations will help in getting exposure to club members as well as a monetary fund for the technical board.
   - Aim to create a fund or account through which monetary support through the collaborations can be directly added to the board fund.

6. **Inter IIT Tech Meet**
   - Aim to improve the position of IIT Guwahati in Tech Meet by restructuring the contingent selection procedure and ensuring the increased participation of final yearites and PG students in the events.

7. **Inclusion of more PG students in Technical club projects/activities:**
   - Many projects in the Technical board require high technical knowledge which UG students lack. Bringing more PG students into the club helps in the faster growth of these projects as well as create diversity in clubs.

8. **Library for the technical board**
   - Clubs have to buy required books from the club's budget. I proposed to have a board library for the technical board.
   - The central library has no one book on competitive examinations like GMAT, CAT.

9. **Enhancing the project level to reach the market.**
   - In our technical board, there is a very large scope of converting many innovative projects to a market product level. But, due to the lack of exposure to the company, proper guidance, and infrastructure, it was not possible.
   - Aim to create an environment for selected projects during the Techevince and provide them exposure and infrastructure from the organizations which have signed MoU with the technical board.

10. **Access to Technical Board Clubs round the clock:**
    - Aim to provide round the clock access to the technical board club to all its club members.

11. **Promote new technologies on campus:**
    - With every day passing by we see lots of new emerging technologies.
    - Aim to promote and develop strategies for inculcating new fields like Blockchain, AI, Cyber Security within the Technical Board.

12. **Inclusion of TedX in Technical Board:**
    - TEDx provides a unique global and widely recognized platform for communities across the globe share their knowledge and ideas with the world.

- Inducting TEDxIITGuwahati into the Technical Board will ensure an annual conduction of the event which would in turn be an excellent opportunity for students and professors of IIT Guwahati to deliver their very own TEDx talks each edition.

Experiences (Credentials if any):

EXECUTIVE HEAD, E-CELL IIT GUWAHATI
- Leading a team of 50+ senior executives along with 8 other heads.
- Conducted zero to one session, started a content initiative, and work for the Internfair website.

MARKETING HEAD, UDGAM 2021
- Managed a group of 20 members.
- Onboarded 15+ industry partners and made deals worth 1 Million.

MEMBER, 4I LABS
- Member of Hexacopter Team 4I Labs, IIT Guwahati.

INSURIDE, KRITI'19
- Conceptualized an idea for insurance services for the cycles on campus.
- Lead a team of 12 members and conducted surveys, user interviews for validating, built a pricing structure, and finally pitched it in front of the jury from EDC.

ROBOTICS ARM, TECHEVINCE 2019
- Build a robotics arm capable of holding, moving and recognizing objects.

CITY REPRESENTATIVE, TECHNOTHLON 2019

Declaration by the candidate:

I hereby declare that the above information is to the best of my knowledge. I do not have any disciplinary probation by the Institute and will abide by the rules and regulations laid for Gymkhana Election. I do not have any active backlogs to be cleared.

I know that any false information in this nomination form will lead to cancellation of my nomination and disciplinary action.
